

# NANOFANS FORUM

"Bridging Biology & Nanotechnology"

## Nanotechnology in Infectious Diseases

All Webinars will be held 11 AM - 12:00 PM

**May 1** - "Microscale Tools for Biomarker Discovery and Electronic Point-of-Care Diagnostics for Infectious Diseases"

[Prof. Aniruddh Sarkar \(BME\)](#)

**May 6** - "RNA-based Drugs for Treating Influenza and SARS-CoV-2"

[Prof. Philip Santangelo \(BME\)](#)

**May 13** - "Point-of-Care Diagnostics via DNA-Based Isothermal Amplification and Paper Test"

[Prof. Gabe Kwong \(BME / IEN\)](#)

**May 20** - "Engineered Biomaterials Reveal Viral Immunity Mechanisms and Augment Therapy"

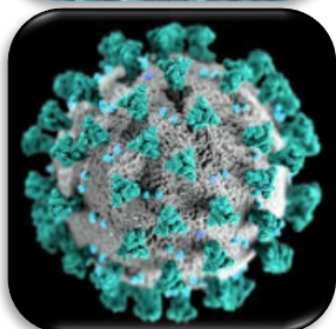

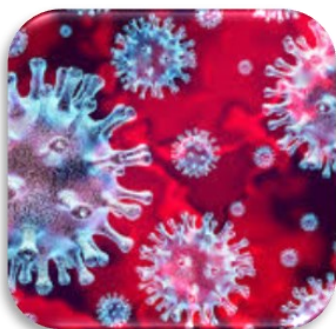

[Prof. Susan Thomas \(ME / IBB\)](#)

**May 27** - "Virus-Like Particle Approaches to Coronavirus Diagnostics and Vaccines"

[Prof. M.G. Finn \(Chem. & Biochem.\)](#)
