

Bioentrepreneurship Networking | Founders Series

September 17, 4:30 – 6:00 pm, N600 HSRB-II

Join Emory University's School of Medicine for its Bioentrepreneurship Networking event featuring guest speaker Young-sup Yoon, MD, PhD! Dr. Yoon will discuss the journey of translating academic discoveries in stem cell and regenerative medicine into clinically applicable therapies and biotechnology ventures. Using the development of iPSC-derived endothelial cell therapy for peripheral artery disease and the founding of KadisBio as examples, he will highlight the scientific, regulatory, funding, and entrepreneurial challenges involved in moving an innovative technology from the laboratory toward patients and commercialization.

Don't miss out on this exciting chance to connect, learn, and collaborate. Food will be provided, and all are welcome to attend. Professional photography will be taken.

Young-sup Yoon, MD, PhD
Director of Stem Cell Biology,
Bruce R. Logue Professor of
Medicine
