

You're invited to the

# **Epic** Cosmos DATATHON

We're thrilled to invite you to the **Epic Cosmos Datathon**, an unparalleled opportunity to collaborate with clinicians, researchers, and data scientists in using Epic Cosmos' de-identified EHR database —one of the **largest healthcare data sets in the world**, encompassing over 270 million patient records.

This intensive one-day event will empower participants to dive into real-world health data, tackle pressing research questions, and aim for **rapid research publication**. With guidance from clinical subject matter experts and Epic staff, teams will explore themes ranging from chronic conditions and health disparities to cutting-edge treatments and rare diseases.

## WHERE?

Emory School of  
Medicine  
Room SOM  
110/313/Lobby

## WHEN?

Friday, March 21, 2025  
11:00 AM – 6:00 PM
