In response to a clear need for genome editing services at Emory, Emory Integrated Genomics Core is introducing a new set of services for editing cell lines.

- We will present a summary of results of a campus-wide survey on genome editing needs.
- We will introduce knock-out and knock-in cell line services.
 - Workflow
 - Rates
 - Deliverables
- We will present two example projects to illustrate how genome editing works at EIGC.

We will also have on hand, a representative from Synthego to describe how their company is able to support your genome editing needs through EIGC.

Please contact EIGC at eigc@emory.edu for more information.
