

Georgia CTSA

Georgia Clinical & Translational Science Alliance

The **Georgia Clinical & Translational Science Alliance** (Georgia CTSA), funded through the National Center for Advancing Translational Sciences, part of the NIH Clinical and Translational Science Awards (CTSA), shares a common vision to *translate laboratory discoveries into treatments for patients, engage communities in clinical research efforts, and train the next generation of clinical investigators.* Translation is the process of turning observations in the laboratory, clinic, and community into interventions that improve the health of individuals and the public.

Georgia CTSA provides:

- **Funding opportunities**
- **Biostatistics & informatics consultations**
- **Community engagement & partnership**
- **High-impact, emerging innovation & translation practices**
- **Dedicated research units**
- **Regulatory, recruitment, & trial strategies**
- **Training, career, & workforce development**

www.GeorgiaCTSA.org

The institutions of the Georgia CTSA, **Emory University**, **Morehouse School of Medicine**, **Georgia Institute of Technology**, and the **University of Georgia**, leverage their complementary strengths to accelerate clinical and translational *education, research, and community engagement* to impact health in *Georgia and beyond.*
