Pediatrics Biostatistics Core

**EMORY**  
UNIVERSITY

**Training Seminar on Bioinformatics in Clinical Research**

**PRESENTERS**

**Hao Wu, PhD**  
Professor  
Biostatistics and Bioinformatics  
Rollins School of Public Health  
Emory University

**Steve Qin, PhD**  
Professor  
Biostatistics and Bioinformatics  
Rollins School of Public Health  
Emory University

**Yijuan Hu, PhD**  
Associate Professor  
Biostatistics and Bioinformatics  
Rollins School of Public Health  
Emory University

**MODERATOR**

**Rishi Kamaleswaran, PhD**  
Associate Professor  
Biomedical Informatics  
Emory University

# Getting Started in Bioinformatics Data Analysis

This seminar is a high-level overview for clinicians, researchers and scientists on analytical workflow for high-throughput data, including genome-wide association study (GWAS), gene expression, DNA methylation, microbiome, and single cell RNA-seq. The overview will focus on biological motivation, popular software tools, and basic data analysis procedures. Collaborative and educational resources will also be introduced.

**Tuesday**  
**September 6, 2022**  
**12 pm - 1:30 pm**

**RSVP** to receive a  
**Zoom link** and add  
to your calendar
