GEORGIA

National Center for Advancing Translational Science (NCATS)

Mission: Deliver new treatments and cures to patients faster.

- CTSA “Hubs”
- Trial Innovation Network
- Rare Diseases Clinical Research Consortia (RDCRC)

Opportunities to Improve Statewide Health

Colleges / Schools

- COE
- Ecology
- FACS
- Grady
- Pharmacy
- Social Work
- Veterinary Medicine
- Public Health
- Law

Programs, Institutes, Centers

- Public Service & Outreach
- Archway Program
- Cooperative Extension
- OIBR
- Center for Family Research

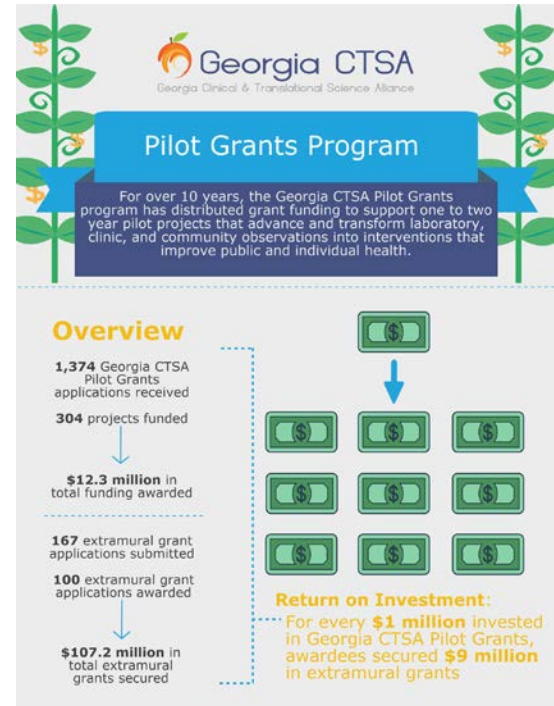

NCATS

- Admin Supplements (PA-16-328, \$300k direct, Nov 1/18, Mar. 1/19)
 - N-Lighten Network: A Federated Platform for Education Resource Sharing
- Collaborative Innovation Awards
 - R21, PAR-18-245 Nov 29; U01, PAR-18-244 Nov 9)
 - Strengthening Translational Research in Diverse Enrollment (STRIDE): Vanderbilt, UAB, Umass
- SBIR/STTR (Clinical, Dissemination & Implementation Research)
- Rare Diseases Clinical Research Consortia (RDCRC)

Georgia CTSA Hub Pilot Grants

Request for Proposals Jan. 2019 with application deadline of Mar. 1/19

- Clinical and Translational Research or Translational Research Question
 - \$40,000 (direct costs)
-
- Biostatistics, Epidemiology & Research Design
 - \$20,000 (direct costs)

AU Medical Partnership / UGA

Clinical & Translational Research Unit Seed Grant Program

Fund 4-6 projects/year up to \$40,000

June deadline, funding over academic year

- competitiveness for outlined external funding opportunity
- strength of the research team
- quality of science
- utilization of the CTRU
- potential impact for a major research project
- probability of obtaining specific aims
- budget.

GEORGIA CTSA ROCS

RESEARCH OPPORTUNITIES AND COLLABORATION SUPPORT

We are excited to announce the launch of the
Georgia CTSA ROCS database

Explore this searchable database for **courses**, collaborative **funding**
opportunities, **programs**, and **cores**

In an effort to foster collaboration and team science among research investigators, the Collaboration & Multidisciplinary Team Science (CMDTS) program has **compiled opportunities currently available to researchers across Georgia that support clinically-related research.**

www.GeorgiaCTSA.org/ROCS

Opportunities Abound

Georgia Clinical & Translational Science Alliance present:

Speed Networking

Save the Date

Registration coming soon!

Learn. Connect. Collaborate.

Join researchers from across the Georgia CTSA for an evening of energetic and dynamic networking. Attendees will participate in a series of short one-on-one meetings with potential collaborators from both clinical and basic science areas.

Topic: Obesity, Diet, Exercise and Lifestyle Behaviors

Who: Interested Clinical & Research Faculty

When: Tuesday, October 30, 2018 | 5:00p.m. – 7:30p.m.

Where: University of Georgia Paul D. Coverdell Center for Biomedical and Health Sciences Atrium, 500 D.W. Brooks Drive, Athens, GA 30605

*Wine and light reception to follow.

Building and Managing a Multidisciplinary Research Team

Presenter

Gaetano Lotrecchiano, EdD, PhD

Gaetano Romano Lotrecchiano,

Team Science

Collaborate. Discover. Implement.

Health Services Research Day at Emory

The Georgia CTSA and Emory Department of Medicine are pleased to present the 5th annual Health Services Research Day

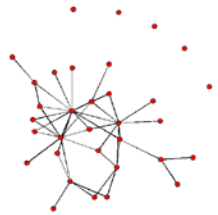

10,000 Women

STATISTICS FRIDAY

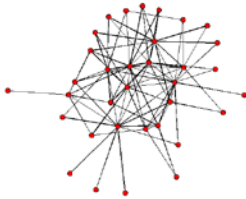

A free weekly walk-in statistical consulting clinic for faculty, staff, and students. Twenty (20) minutes immediate assistance for basic statistics questions, without scheduling a formal consultation.

Interdisciplinary Collaboration

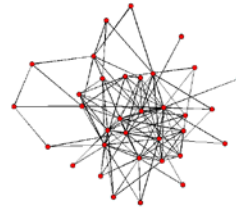

2007-2008

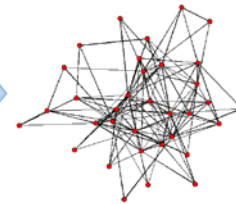

2009-2010

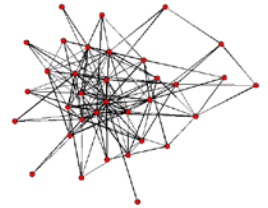

2011-2012

2013-2014

2015-2016

Significant increase in *interdisciplinary* publications over time

More publications per grant dollar

Papers have higher citation index

(Llewellyn N, Carter DR, Rollins L, Nehl EJ. *Acad Med.* 2018;93(8):1162-70.

25% increase in funding success rate

30% increase in grant award size

Coordinating Center

Expedites discovery of Georgia CTSA resources
