

Applications NOW OPEN for Year 3 of the BDCI Accelerator Grants!

We are pleased to announce that applications for Year 3 of the BDCI Accelerator Grants are now open! These awards are aimed at providing seed funding for new projects and recent collaborations that both enhance interdisciplinary research and drive innovation throughout the Emory scientific community. **We will fund up to five Accelerator Grants at \$40,000 each to interdisciplinary teams of Emory researchers.** Preference will be given to projects and collaborations that were formed out of BDCI programming and are in alignment with the goals of the BDCI, which are to:

EMORY
UNIVERSITY

Biological Discovery
Through Chemical Innovation

Accelerator grant

- Establish a broad and diverse network of Emory researchers at the key intersection of biology, chemistry, and human health
- Support the translation of biological insights to chemical tools and their use to promote understanding of disease mechanisms
- Accelerate the development of the next generation of chemical tools, safe & effective drugs, and diagnostic agents

Key dates:

10/29: Letters of intent due

11/30: Final applications due
