

Join researchers and clinicians from across the Georgia CTSA for a session on **RECOVER: Researching COVID to Enhance Recovery.**

RECOVER, a research initiative from the National Institutes of Health (NIH), seeks to understand, prevent, and treat PASC, including Long COVID. PASC stands for post-acute sequelae of SARS-CoV-2 and is a term scientists are using to study the potential consequences of a SARS-CoV-2 infection.

Blue Sky Groups are unstructured meetings that provide a unique opportunity for attendees to drive the agenda and catalyze future collaborations and research opportunities.

The discussion will be opened by Igho Ofotokun, MD and Rachel Patzer, PhD, MPH, leads of RECOVER Atlanta.

Share your experience, learn from others, enjoy opportunities for interdisciplinary networking and find potential collaborators!

When:

Jan. 19, 2023

3:30 - 5:00 PM

Where:

ZOOM

(link in registration)

RSVP:
