

Join researchers and clinicians from across the Georgia CTSA for a session on **Space Research**.

Blue Sky Groups are unstructured meetings that provide a unique opportunity for attendees to drive the agenda and catalyze future collaborations and research opportunities.

The discussion will be opened by a panel discussion featuring five researchers from across the CTSA in this field: **Dr. Thom Orlando, Dr. William Dynan, Dr. Binu Tharakan, Dr. Chunhui Xu, and Dr. Phillip Stancil**. Discussion topics may include, but are not limited to:

- What are the burning research questions in this area?
- What are the known funding opportunities?
- What are the cross-institutional collaborative research opportunities in this field?

Share your experience, learn from others, enjoy opportunities for interdisciplinary networking and find potential collaborators!

**When:**  
August 25, 2026  
11:00AM - 12:30PM

**Where:**
