# WEBINAR SERIES

## Integrating Extreme Weather Preparedness for Families into a Clinical and Public Health Setting

**TO REGISTER:** [link here](#)

**Date:** February 3, 2026

**Time:** 12-1 pm ET

### SPEAKER:

**David Greenky**  
MD, FAAP

Assistant Professor, Emory University  
School of Medicine  
Pediatric Emergency Medicine  
Physician, Children's Healthcare of Atlanta

### SPEAKER:

**Paul E. Petersen**  
PharmD, MPH, CEM

Director of the Emergency Preparedness Program,  
Tennessee Department of Health

### DESCRIPTION:

With high-impact severe weather events on the rise, it is important for clinical professionals and those working with communities to understand the role they can play in disaster preparedness and response. This webinar will highlight how pediatricians can support families in disaster preparedness more directly at the clinical level. It will also look at the impacts of severe weather from a public health perspective with a focus on pharmaceutical distribution and supply chain response.

*Attendees may be eligible for 1 CNE credit*

### WEBINAR OBJECTIVES:

- Educate patients, families, and community members on the basics of preparing for extreme weather.
- Include the unique needs of children in planning for weather-related emergencies.
- Describe key pharmacy-related challenges and practical considerations in extreme weather scenarios.
- Identify priorities for extreme weather preparedness to mitigate the impact of future events.
