

Join researchers and clinicians from across the Georgia CTSA for a session on Cooperative Extension in Georgia.

<u>UGA Cooperative Extension</u> has a presence in all 159 counties in Georgia and is actively involved in health and wellness education and research in the community. UGA Extension is there to address issues that affect individuals and families, including obesity, diabetes, opioids, food security, cancer prevention, quality affordable housing, partner and family relationships, environmental quality, rural stress, and so much more. This Blue Sky Group session will be led by Dr. Alison Berg, PhD, RDN and several Extension faculty colleagues and will include discussion on:

- What is Extension?
- Current Extension health and wellness research and outreach projects
- Opportunities to collaborate with Extension to improve health in Georgia

Share your experience, learn from others, enjoy opportunities for interdisciplinary networking and find potential collaborators!

When: January 19 4:30-6:00 PM
