

You're invited to the

Epic Cosmos DATATHON

We're thrilled to invite you to the **Epic Cosmos Datathon**, an unparalleled opportunity to collaborate with clinicians, researchers, and data scientists in using Epic Cosmos' de-identified EHR database –one of the **largest healthcare data sets in the world**, encompassing over 300 million patient records.

This intensive two-day event will empower participants to dive into real-world health data, tackle pressing research questions, and have a chance to win an **HSR Center-funded award** to facilitate advancing the project to publication, conference presentation, and/or larger grant submission. With guidance from clinical subject-matter experts and Epic staff, teams will explore themes such as **quality and patient safety, clinical operations, cost-effectiveness**, and **clinical outcomes**.

WHERE?

Emory University
School of Medicine
Room 110

WHEN?

Tuesday–Wednesday,
August 4–5, 2026
9:00 AM–5:00 PM Daily
