

Influential Mentoring Training Series

The Research Education Core at the Georgia CTSA is offering the *Influential Mentoring Training Series* through monthly, hour-long, interactive Zoom sessions. The series will cover important topics to build mentoring knowledge and skills with a focus on improving and supporting equitable mentorship for diverse trainees. The training will be led by Dawn Comeau, PhD, Director of Mentor Training for the Georgia CTSA and Professor of Behavioral, Social, and Health Education Sciences in the Emory Rollins School of Public Health. This training is for **FACULTY ONLY**.

All sessions are 12-1pm EST

January 8 *Assessing Mentees' Understanding*

Strategies to help mentors assess the depth and breadth of their mentee's knowledge and skills as a foundation for providing appropriate guidance

February 19 *Using Coaching Approaches*

Learn important coaching approaches to integrate into mentoring practices that will help your mentees develop and achieve their professional goals

March 5 *Evaluating Mentorship*

Ever wonder how well you are doing as a mentor? Learn strategies to assess your effectiveness in mentoring relationships

April 2 *Five Practices for Success*

As the final session in our series, this topic covers five practices you can adopt to improve your mentoring
