

NANOFANS FORUM

"Bridging Biology & Nanotechnology"

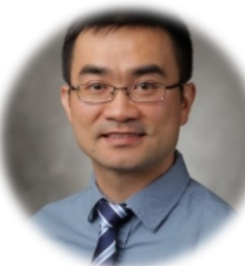

Organ-on-a-Chip Technology

All webinars will be held 11 AM - 12:00 PM EDT

October 6 - "On-chip Spheroid Growth under Pulsatile Pressure"

Prof. Chengzhi Shi
School of Mechanical Engineering, Georgia Tech

October 13 - "Novel Hydrogel-based Microvasculature-on-chips for Studying Microvascular Occlusion and Thrombosis in Disease"

Prof. Yongzhi Qiu
Department of Pediatrics, Emory School of Medicine

October 20 - "Brain Microphysiological System"

Prof. Yeoheung Yun
Department of Chemical, Biological, & Bioengineering, North Carolina A & T State University

October 27 - "Towards the High-throughput Screening of Brain Organoids on Chip"

Dr. Guillaume Aubry
School of Chemical & Biomolecular Engineering, Georgia Tech
