

# NANOFANS FORUM

"Bridging Biology & Nanotechnology"

## Nanotechnology in Vaccine Delivery

All webinars will be held 11 AM - 12:00 PM EDT

**May 5 - "Localization of mRNA-based Vaccines in Non-Human Primates - A Multi-Modality Approach"**

Prof. Philip Santangelo  
Dept. of Biomedical Engineering, Georgia Tech

**May 12 - "mRNA Vaccines and COVID-19 – The Start of a New Era of Vaccinology"**

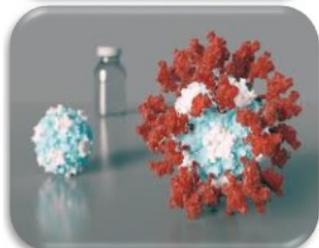

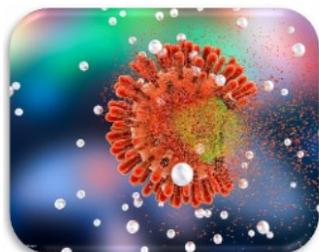

Prof. Evan Anderson  
Dept. of Pediatrics & Medicine, Emory School of Medicine

**May 19 - "Virus-Like Particle Approaches to Coronavirus Diagnostics and Vaccines - an Update"**

Prof. M.G. Finn  
School of Chemistry & Biochemistry, Georgia Tech

**May 26 - "Lipid Nanoparticles for *In Vivo* mRNA Delivery"**

Dr. Kalina Paunovska  
Dept. of Biomedical Engineering, Georgia Tech

**NanoFANS Webinars in May 2021**

**Register to receive meeting URL**
