

Primary Practice Practitioner Program for Chronic Pain (4PCP) Study

*If treating **CHRONIC PAIN** adds to your burnout, we can help!*

- We have spent 20 years developing the 4PCP curriculum
 - 4PCP revolutionizes your approach to chronic pain management, to work in an effective team instead of solo
 - 2013 pilot study showed shorter visit times, less burnout, and better patient outcomes.
- **Up to 34 hours of CME/CEU** available for all disciplines, not just MDs, and MOC credit
 - Also **fulfills DEA requirement for 8 hours of opioid CME**
 - Three Friday afternoon 5-hour workshops, all virtual
 - Two hours of low-key, entertaining background videos before each workshop
 - Monthly 4PCP ECHO roundtable to discuss new approaches, cases, and challenges
 - Optional practicum in your office (up to 12 hours)
- **Tuition (\$400) covered by an AHRQ grant**
 - Fill out 6 surveys over 3 years
 - Identify 20 of your chronic pain patients we will recruit and enroll for their own survey.

Please contact us if you are interested in participating. We are confident this training will be a worthwhile investment of your time and effort.
