

RRF- Foundation for Aging – Research Grants: Letter of Inquiry Deadline is November 15, 2021, 11:59 PM CT

RRF funds research that seeks to identify interventions, policies and practices to improve the well-being of older adults and/or their caregivers. Preference is given to projects aimed at generating practical knowledge and guidance that can be used by advocates, policy-makers, providers, and the aging network.

- Of particular interest are:
 - Interventional trials; translational studies; and health services and policy research
 - Projects that build on the investigator's past studies
 - Proposals that include robust dissemination plans, if appropriate, to assure that findings reach audiences positioned to act on them
- **A single department can only submit 1 application.** Given this departmental limitation, we encourage faculty to inform their Chair as soon as possible if they are interested in submitting an application. We ask that you also inform Nicole Dancz in the Office of Foundation Relations (nicole.dancz@emory.edu) to ensure that there is no selection needed at the Departmental level.
- Applicants are encouraged to develop realistic budgets that include all expenses needed to effectively implement their projects. Applicants can review RRF's [Past Grants](#) to review the grant awards RRF has made over the past five years. (Office of Foundation Relations can assist with this)
- **Contact:** Nicole Dancz, Office of Foundation Relations, nicole.dancz@emory.edu
