

## Society for Developmental Biology

*Advancing the field of developmental biology*  
**Southeastern Regional Meeting**

Please join us for the **Society for Developmental Biology's** regional meeting to be held in Chapel Hill, NC from June 1<sup>st</sup> – 3<sup>rd</sup>, 2022.

The SESDB meeting is designed to bring together basic scientists, engineers, and clinicians to discuss experimental embryology, biophysical aspects of development, tissue function, morphogenesis, gene function, congenital malformations, stem cell and regenerative biology.

*This year's Keynote speakers will include:*

Martin Hudson – Professor of Biology, Interim Chair, Department of Molecular and Cellular Biology – Kennesaw State University

Celeste M. Nelson – Wilke Family Professor in Bioengineering, Professor of Chemical and Biological Engineering, Director, Program in Engineering Biology, – Princeton University

A major focus of the meeting is to provide exposure and networking experiences for junior scientists. Undergraduate, Graduate, and Postdoctoral trainees are highly encouraged to submit abstracts for poster and/or platform presentations.

Details regarding the meeting can be found at: <https://tarheels.live/sesdb2022/>

Registration and abstract submission can be found at:

<https://tarheels.live/sesdb2022/registration/>

The meeting will be hosted at the  
**Friday Conference Center**  
University of North Carolina  
100 Friday Center Drive  
Chapel Hill, NC 27599-1020
