and Nanotechnology

Soft Lithography for Microfluidics Short Course

April 13 – 14, 2023 – 9:00 a.m. – 5:00 p.m.

Marcus Nanotechnology Building | 345 Ferst Drive

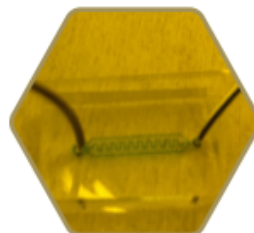

During this two-day course, attendees will:

- Enhance their laboratory skills
- Make a PDMS Microfluidic Device
- Participate in hands-on sessions led by IEN experts
- Learn new fabrication techniques in the most advanced shared user cleanroom in the Southeast

- Georgia Tech attendee - \$150
- Academic or government attendee - \$300
- Industry attendee - \$600

* Lunch and break refreshments included
