Managing Sites in MCT

Multicenter sIRB Procedures and Coordination

Recruitment & Retention: Planning and Development

MCT Management

Monitoring Plans and Quality Assurance

Accelerated Startup

Recruitment & Retention: Implementation Phase

Data and Safety Monitoring Board

## Focus

This program is designed to enhance the skills and knowledge of investigators and project managers. The course materials bridge the gap between leading a single site to leading a multicenter clinical trial.

## Format

Asynchronous modules and live online discussion-based sessions.

## Duration

8 sessions, virtual, cohort-based program.

## Who

This program is designed for **principal investigators (PI) and clinical research project managers (PM)** transitioning from single-site trials to leading multicenter clinical trials. Principal investigators will submit one application on behalf of the dyad (PI and PM).

## Instructors

Led by renowned TIN experts and seasoned clinical trialists.
