Final Report-outs & Feedback

- Fri 02 Dec (9am to 12pm)

What is the business case for your translational science?

Find out via the I-Corps@NCATS Regional Short Course. Based on the National Science Foundation's Innovation Corps (I-Corps TM) program, the premier federally funded innovation and commercialization training in the U.S. I-Corps@NCATS provides biomedical scientists, clinical scientists and engineers with a new approach to accelerate the translation of discoveries from the lab to clinical practice.

Who should attend?

Teams of faculty, postdocs, and students with biomedical innovations or ideas.

Why should I attend?

The I-Corps@NCATS Regional Short Course hosted by the University of Rochester will help you connect with potential customers for your research projects, protocol, service, or prototype.

- Determine the commercial viability of your innovation.
- Develop a successful business case for securing funding.
- Expand your network of innovation partners, mentors, and potential collaborators.
- Develop a new way of thinking about how to value the impact of your research.
- Leverage funding to support customer discovery for selected teams.

***Please note that attendance is required at ALL sessions.
Also, no sessions will be held during Thanksgiving week.***

To register, sign up your team by **October 3** at https://redcap.link/UR_NCATS_I-Corps_2022. Applicants will be notified of acceptance by October 10th.
