KL2

MENTORED CLINICAL AND TRANSLATIONAL RESEARCH SCHOLARS PROGRAM
KL2-Mentored Clinical and Translational Research Scholars Program

The goal of the Georgia Clinical & Translational Science Alliance (Georgia CTSA) KL2-Mentored Clinical and Translational Research Scholars Program is to support and enhance career development for junior faculty (MD, PhD, MD/PhD, or PharmD) from a wide variety of disciplines at Emory University, Morehouse School of Medicine (MSM), Georgia Institute of Technology (Georgia Tech), and University of Georgia (UGA) College of Pharmacy. The Georgia CTSA KL2 Program is committed to assisting junior faculty at partner institutions to become independent, established, and ethical clinical and/or translational research investigators. Trainees accepted into the KL2 Scholars Program will receive salary support to enable them to spend at least 75% of their professional time (50% is allowed for trainees from surgery or surgical subspecialties) on clinical and/or translational research and research training and a $25,000 technical budget for research-related expenses and tuition for the Master of Science in Clinical Research (MSCR) degree or Certificate Program in Translational Research (CPTR) curriculum. Didactic research training is provided through the required MSCR or CPTR and mentored research training under the direction of an established, federally funded clinical investigator at one of the collaborating institutions. Support in the program will be provided for up to two years.

KL2 Application Information

Who Should Apply
Junior faculty with a doctorate (MD, PhD, MD/PhD, PharmD, or equivalent) at the rank of Instructor or Assistant Professor at Emory, MSM, Georgia Tech, or UGA College of Pharmacy are eligible to apply to the program. Individuals who have accepted a faculty appointment at any of the four collaborating institutions may also apply if they will be on the Emory, MSM, Georgia Tech, or UGA College of Pharmacy faculty at the date of receipt of the award (e.g., July 1 or August 1). Faculty appointments cannot be dependent upon receipt of this KL2 award. Junior faculty physician candidates should have completed training in a specialty or subspecialty and be board eligible or certified. Non-physician candidates must have a PhD and/or PharmD degrees.

Per NIH requirements, KL2 program applicants must be U.S. citizens or permanent residents.

Read more about eligibility at GeorgiaCTSA.org/training/KL2/

KL2 Application
All application components should be uploaded to the online submission system.

GeorgiaCTSA.org/training/KL2/apply

Components of the application must include:

- Cover Page
- Cover Letter from Applicant
- Abstract
- Research and Training Plan
- Human Subjects and Data Safety and Monitoring Plan
- Literature Citations
- Budget
- Letters of Support
- NIH Biosketch and Other Support Page
- Facilities and Other Resources
- Application Fee and Original Transcripts
MSCR Curriculum

Core Courses (30 minimum credits)
- Introduction to Clinical and Translational Research
- Analytic Methods for Clinical and Translational Research
- Biostatistics
- Data Management
- Community Engagement and Health Disparities
- Clinical Trial Design and Analysis
- Scientific and Grant Writing
- Overview of High Dimensional Data
- Clinical Research Colloquium
- Analysis and Presentation of Clinical Research Data
- Health Services Research
- Ethical, Legal, and Social Issues of Responsible Clinical Research
- Big Data to Knowledge (BD2K) for Clinical and Translational Research

Additional Requirements for the MSCR
- Observe an Institutional Review Board (IRB) meeting
- Clinical and Translational Research Journal Club

Certificate Program in Translational Research (CPTR) (16 minimum credits)
The Certificate Program in Translational Research is an option as the didactic training for KL2 scholars with PhD degrees.

About the Program
The CPTR is a formal program in Emory Laney Graduate School. CPTR trainees may elect to take the coursework over a single year or spread over two years.

GeorgiaCTSA.org/CPTR

CPTR Courses
- Introduction to Clinical and Translational Research
- Fundamentals of Epidemiology
- Community Engagement and Health Disparities
- Health Services Research
- Translation to Clinical Medicine
- Biostatistics for Translational Research
- Clinical Research Colloquium
- Ethical, Legal, and Social Issues of Responsible Clinical and Translational Research
- Scientific and Grant Writing
- Big Data to Knowledge (BD2K) for Clinical and Translational Research
- Elective: Advanced Data Management in R

Electives
A 1-2 credit elective is required and may be taken at any Georgia CTSA institution upon approval by the Associate Director of the CPTR.

Additional Requirements for the CPTR
- Observe an Institutional Review Board (IRB) Meeting
- Clinical and Translational Research Journal Club
- Special Workshops and Lectures

Elective Courses
- Advanced Data Management in R
- Personalized training, includes courses at any of the Georgia CTSA partner institution

UGA’s first KL2 scholar, Lilian Sattler, PhD, assistant professor, Department of Clinical and Administrative Pharmacy, College of Pharmacy, and the Department of Foods and Nutrition, College of Family and Consumer Sciences, explains study purpose, procedures, risks, and benefits to potential study participants during the informed consent process.
GEORGIA CTSA RESEARCH EDUCATION EXECUTIVE COMMITTEE

Jessica A. Alvarez, PhD, RD
Associate Director, Certificate Program in Translational Research (CPTTR)
Assistant Professor of Medicine, Division of Endocrinology, Metabolism, and Lipids
Emory University School of Medicine

Pamela Bhatti, PhD, MSc
Co-Director, KL2 & TL1 Programs, Georgia Tech
Associate Chair for Innovation and Entrepreneurship and Associate Professor
School of Electrical and Computer Engineering
Georgia Institute of Technology
Adjunct Assistant Professor
Department of Rehabilitation Medicine
Emory University

Henry M. Blumberg, MD
Director, Georgia CTSA
Research Education Program
Co-Course Director, Clinical Research Colloquium
Professor of Medicine
Division of Infectious Diseases
Emory University School of Medicine
Professor of Epidemiology and Global Health
Emory Rollins School of Public Health

Lou Ann Brown, PhD
Professor of Pediatrics, Division of Neonatal-Perinatal Medicine
Director, Office of Postdoctoral Education
Emory University School of Medicine

Dawn L. Comeau, PhD, MPH
Mentor Training Director
Associate Professor & Vice Chair for Faculty Development

Department of Behavioral Sciences and Health Education
Emory Rollins School of Public Health

Cam Escoffery, PhD, MPH, CHES
Associate Professor of Behavioral Sciences and Health Education
Emory Rollins School of Public Health

Anne Fitzpatrick, PhD, MSc
Program Director, Georgia CTSA Pediatrics
Associate Professor of Pediatrics
Division of Pulmonology, Allergy/Immunology, Cystic Fibrosis, and Sleep Medicine
Emory University School of Medicine

David R. Goldsmith, MD
Assistant Professor of Psychiatry and Behavioral Sciences
Emory University School of Medicine

Jordan A. Kemper, MD, MSc
Co-Course Director, Introduction to Clinical & Translational Research
Assistant Professor of Medicine
Division of Pulmonary, Allergy, Critical Care, and Sleep Medicine
Emory University School of Medicine

Matthew Magee, PhD
Co-Course Director, Analytic Methods for Clinical and Translational Research
Associate Professor
Hubert Department of Global Health
Rollins School of Public Health

Amrita Manatunga, PhD
Course Director, Overview of High Dimensional Data, Co-Director, MSCR Thesis Committee

Vasiliki Michopoulos, PhD, MSc
Assistant Professor of Psychiatry and Behavioral Sciences
Emory University School of Medicine

Igho Ofotokun, MD, MSc
Co-Director, KL2 Program
Co-Course Director, Clinical Research Colloquium
Co-Coordinator, MSCR Journal Club
Professor of Medicine
Division of Infectious Diseases
Emory University School of Medicine

Alexander Quashie, MD, MSc
Co-Director, TL1 Program
Assistant Professor of Surgery and Epidemiology
Department of Surgery, Division of Transplantation & Department of Epidemiology
Rollins School of Public Health

Amit Shah, MD, MSc
Co-Director, TL2 Program
Professor of Microbiology and Immunology
Emory University School of Medicine

Anandi Sheth, MD, MSc
Associate Professor of Medicine
Division of Infectious Diseases
Emory University School of Medicine

Thomas R. Ziegler, MD
Co-Director, TL1 Program
Professor, College of Pharmacy
Director of Clinical and Experimental Therapeutics
University of Georgia

Andi L. Shane, MD, MPH, MSc
Co-Course Director, Clinical Trial Design
Professor of Pediatrics
Division of Infectious Diseases
Marcus Professor of Hospital Epidemiology and Infection Control
Emory University School of Medicine

Somanath P.R. Shenoy, PhD, FAHA
Co-Director, TL1 and KL2 Programs, UGA
Professor, College of Pharmacy
Director of Clinical and Experimental Therapeutics
University of Georgia

Samantha P. R. Shenoy, PhD, FAHA
Co-Director, KL2 Program
Professor, College of Pharmacy
Director of Clinical and Experimental Therapeutics
University of Georgia

Co-Director, CTSA Clinical Research Center
Co-Course Director, Grant Writing
Professor of Medicine
Division of Endocrinology, Metabolism and Lipids
Emory University School of Medicine

Andrea L. Holder, MD, MSc, assistant professor in Pulmonary, Allergy, Critical Care, and Sleep Medicine at Emory, reviewing clinical data in Grady Hospital’s medical ICU
