Team Charters: Laying a Strong Foundation for Team Success

Whether your team is starting a new project, working to establish new norms, or setting expectations for new members, a team charter can help your team lay the foundation for success. A team charter is a codified plan for how a team will manage teamwork activities. Team charters are evidence-based and are associated with improved team performance. This hands-on workshop will

describe the benefits of team charters and provide the resources necessary to implement an effective charter in your team.

Team consult opportunity:

Our Team Science Skills presenters have graciously opened their schedules to provide a limited amount of attendees with direct feedback and guidance on their personal team issues. During a one-hour consulting session, attendees will be able to directly ask our experts questions and get personalized advice on how to effectively move their team forward. Requesters must attend the full session and complete the post-evaluation survey to be eligible.

Upcoming Workshops:

Leadership
Shawn Burke
May 8th
12:00 pm – 1:00 pm
