The goal of the Southeast Regional Clinical & Translational Science Conference is to bring together researchers from across the southeast region to present the best new clinical and translational research and build collaborative relationships.

Clinical and/or translational researchers working across the southeast are invited to submit an abstract. All selected abstracts will be presented in a virtual format.

**ABSTRACT SUBMISSION DEADLINE:** November 9, 2020

After the submission deadline, all completed and eligible abstracts will be made available to the conference abstract reviewers for scoring. Final decisions will be made by the conference planning committee in January. You will learn in January if your abstract has been accepted and if you were chosen for an oral or poster presentation.
